

RISH *Insu* 10

Battery Operated Digital Insulation Tester

- ❖ Selectable Test Voltages 50V/ 100V/ 250V/ 500V/ 1000V
- ❖ Insulation Resistance Measurement from 10k Ω ...999M Ω
- ❖ Preselectable measurement time for Insulation resistance measurement from 10 seconds to 5 minutes
- ❖ Automatic discharge of capacitive circuits after test performed
- ❖ Live circuit detection
- ❖ Preselectable limit checks (Go/No-Go option) for M Ω
- ❖ Storage of Min/Max. values
- ❖ Storage memory for last 50 readings
- ❖ Low Resistance measurement (0.01 Ω to 99.9 Ω)
- ❖ Continuity Testing with programmable threshold resistance
- ❖ Voltage measurement
- ❖ Stopwatch function
- ❖ Auto power off
- ❖ Power Supply - Battery :
6 x 1.5 V cells, IEC LR6
- ❖ Service life :
Typically 3000 x 5 sec operations

Measure, control & record with a difference
